RESPONSE TO RESTRICTION REQUIREMENT

Via Fax - (571) 273-8300
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In complete response to the Official Action issued December 13, 2006,
Applicants respectfully elect, with traverse, the invention of Group III drawn to a
method of inducing a drug from an inhaler into a spacer.

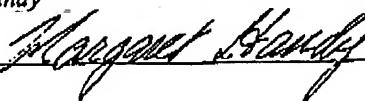

M.P.E.P. §803 states that an application may be properly restricted to one
or more claimed inventions only if (1) the inventions are independent or distinct
as claimed, and (2) there is a serious burden on the Examiner if restriction is not
required. Thus, even if appropriate reasons exist for requiring restriction, such a
requirement should not be made unless there is an undue burden on the Examiner
to examine all the claims in a single application.

CERTIFICATE OF TRANSMISSION

I hereby certify that this correspondence is being facsimile transmitted to the United States Patent and
Trademark Office, Fax No. (571) 273-8300 on January 12, 2007.

Typed or printed name of person signing this certificate
Margaret Handy

U.S. Serial No. 10/726,627

Attorney Docket No. 21367

Although the Examiner has alleged different sub-classifications for the inventions for Groups I, II and III, it would seem that search and examination involved for all three groups of inventions would substantially overlap. Because of the apparent overlapping examinations, a serious burden would not be imposed on the Examiner to examine all of the claims in a single application, and restriction is improper.

If there are any questions concerning this paper, or the application in general, the Examiner is invited to telephone the undersigned at her earliest convenience.

Respectfully submitted,

Robert J. Humpsch
